

Bromley Park Care Home residents prepare for Nellsar in Bloom

Our residents at Bromley Park Care Home were busy painting plant pots and jars with bright coloured paints on Saturday 27 April, all in preparation for entering our group-wide gardening festival - *Nellsar in Bloom*.

We are excited for the warmer weather to arrive so we can make a start in the garden.

Each month, there will be a creative theme for the festival:

Grow your own strawberries – June

Plant and nurture strawberries to use in an event or dish at your Home.

Unusual flower container – July

Create an imaginative flower container.

Themed garden – August

Design colourful, fun and creative gardens, large or small-scale, indoors or out.

Wildlife engagement – September

Encourage 'all creatures great and small' into the garden and help them to thrive through

feeders, planting and housing.

So watch this space, we can't wait to get started!
