

Bromley Park Care Home welcomes fascinating creatures from Zoolab

There was a buzz in the air recently when our residents at Bromley Park Care Home welcomed staff from Zoolab who brought in a collection of animals for us all to see.

Zoolab are a company that provide **hands-on animal encounters** and they brought around some fascinating creatures for us all to look at (or handle if we were brave enough!) – including a giant snail and a corn snake.

Our residents very much enjoyed the experience and learning all about the animals.
