

Hatching chicks at Bromley Park Care Home

We have been very excited to have a batch of living eggs to look after here at Bromley Park Care Home.

Our residents have loved watching them hatch, especially Colin who's been fascinated by our new arrivals as they've broken out, one by one.

We've hatched a total of **seven chicks** and have loved watching them, as they are so adorable! We have four hens and three cockerels and our residents have thoroughly **enjoyed petting them** and helping us look after them.

What a privilege it's been to watch them grow.
