

Keeping in touch with family Down Under at Bromley Park Care Home

It's particularly important for our ladies and gents at Bromley Park Care Home to keep in touch with their loved ones at the moment, whilst restrictions are in place.

Our lovely resident Eily recently enjoyed having a **long distance video call** with her daughter, son-in-law and grandson in Australia.

It was so wonderful to see how the contact really lifted her spirits as they chatted and caught up with all their news.

Technology at its best!
